**Subj :- Environment Clearance – Quarry project at Kanichar
Village & Panchayath, Thalassery Taluk, Kannur
District, Kerala – Compliance Report – Second half -
Reg.**

Respected Sir,

The Quarry (Building stone) project was accorded Environmental Clearance for **3.9076 Ha.** by order No. **43/SEIAA/KL/7163/2012**, dated 15-03-2013 by State Environmental Impact Assessment Authority, Kerala. The compliance report of **Second Half** (October 2018 – March 2019) to the specific and general conditions of the Environment Clearance order is enclosed.

Thanking you,
Yours respectfully,

For M/s New Bharat Stone Crusher & Hollow Bricks Industries

Partner

INTRODUCTION

Quarry project of **M/s New Bharat Stone Crusher & Hollow Bricks Industries** is situated at survey No. 1411, at Kanichar Village & Panchayath, Thalassery Taluk, Kannur District, Kerala.

The quarry project was accorded with the Environmental Clearance (EC) by State Environmental Impact Assessment Authority on 15-03-2013. As part of general condition No.25 of Environmental Clearance order, half yearly compliance report needs to be submitted by the project proponent. The compliance report of Second half to the specific conditions and general conditions of the Environmental Clearance order for the period of **October 2018 – March 2019** is being submitted.

M/S NEW BHARAT STONE CRUSHER & HOLLOW BRICKS INDUSTRIES

COMPLIANCE REPORT

Brief of the project

Type of Project	Quarry project (building stone)
Name of the project	M/s New Bharat Stone Crusher & Hollow Bricks Industries
Category of the project	B2 As per O.M. No. L-11011/ 47/2011-IA.II (M) dated 18.05.2012.
GPS Locations	Latitude N 11° 51' 03.44" N Longitude E 75° 45' 48.30" E
Address for correspondence	24 th Mile Nedumpoyil, Poolakkuty, P.O. Kannur District, Kerala-670650 Email id:- nbscrusher@yahoo.in Phone No. – 0485-2302809
Name, Phone Number & e - mail id of responsible persons	1. Mr. Abin Issac Partner abinissac.77@gmail.com 9947 565 233 2. Yesran Pasha Manager yesranpasha@gmail.com 9544 924 440
Main Features	
Total area under Environment Clearance	3.9076 hectare
Minable reserves	33,60,000
Production	2,40,000 MTA
Life of Mine	14 years
Highest and lowest elevation	225 m MSL and 90 m MSL
Crusher unit	Yes within the project site
Environmental Settings	
Nearest stream	Not within 500 meter
Nearest house	None within 100m meter
Nearest town	Peravoor
Nearest worship place	Nedumpoyil -2 Km
Nearest hospital	Peravoor - 10 km towards NW.
Nearest School	Perunthodi aided school -5 km – NW

M/S NEW BHARAT STONE CRUSHER & HOLLOW BRICKS INDUSTRIES**COMPLIANCE REPORT**

Seismic zone	Zone-III, Moderate damage risk zone as par BMTPC, Vulnerability atlas Seismic zone of India IS: 1893-2002.
Air quality	Under NAAQ standard
Water quality	Under permissible limit of IS 10500 -2012
Ambient noise	43.9 dB (A) at day time Under permissible limit

COMPLIANCE REPORT
(SPECIFIC CONDITIONS)
PART A

PART - A – SPECIFIC CONDITIONS

01	A buffer distance of at least 100 m. from the quarry to the main road should be maintained.	Complied
-----------	---	-----------------

Compliance:

The project has maintained a minimum buffer distance of 120 meter from the quarry to the main road. The nearest road to the quarry site is Nedumpoyil – iritty road. It ensures the safety of passengers, and to prevent possible damage due to the vibration of blasting.

02	The required distance from the H T line to be maintained as prescribed by KSEB	Complied
-----------	--	-----------------

Compliance:

The project is not doing any mining activity near to the H T line as per the direction of State Environment Impact Assessment authority, Kerala. The mining activity is progressing more than 300 meters away from the H T line of KSEB. The photograph of HT line and nearby area is given in **Plate No. 1**. This measure has taken as safeguard mitigation for an uninterrupted splay of electricity.

03	Depth of mining should not exceed 35 meter below ground level as given in the proposal	Being complied
-----------	--	-----------------------

Compliance:

The maximum depth of mining will not exceed 35 meter below the ground level as proposed. The exploration of building stone is progressing as per the plan submitted in front of State Environment Impact Assessment Authority (SEIAA), Kerala.

COMPLIANCE REPORT
(GENERAL CONDITIONS)
PART B

PART – B – GENERAL CONDITIONS

01	Rain water harvesting to collect and utilize the entire water falling in land area should be provided.	Complied
-----------	--	-----------------

Compliance:

To collect rain water from the entire project land, the proponent has developed rain water harvesting structure in the quarrying area. It is situated in the lowest level of quarry area. The surface runoff is chanelized to the pond through garland drains. The stored rain water is using for watering of plants, wetting of roads and sprinkler system for contain dust emission. The photograph showing the rain water collection pond in the project area is attached in **Plate No. 2.**

02	Environment monitoring cell as agreed under the affidavit filed by the proponent should be formed and made functional.	Complied
-----------	--	-----------------

Compliance:

The Project proponent has formed Environmental Monitoring Cell (EMC) with Mr. Abin Issac as head of the monitoring cell. The EMC meeting convened regularly to evaluate and monitor quarrying work in connection with the specific and general conditions stipulated in the Environmental Clearance (EC) order.

As part of monitoring, the quality of sound level, ambient air and water are monitored through a NABL accredited laboratory. The test results are well within the permissible limits. The results are given at **Annexure No. 1, 2 & 3.** The details of the monitoring cell are given below in the **Table No. 1.**

Table 1 - Environmental Monitoring Cell (EMC)

Sl. No.	Post	Name
1.	Head of monitoring cell (proprietor)	Abin Issac
2.	Head in charge (Environmental)	Yesran Pasha.S
3.	Senior Environmental Officer	George
4.	Environmental consultant	M/s Environmental Engineers & Consultants Pvt. Ltd.

03	Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, inclusive of approach road and internal roads.	Complied
-----------	---	-----------------

Compliance:

The project proponent has planted suitable avenue trees along either side of the roads and parking area. There are natural vegetations including trees, shrubs, herbs and climbers along the road side. This vegetation is working as green belt against emitting dust. This vegetation can reduce air and sound pollution. The details of vegetation are given below in **Table No. 2**. Photograph of the avenue trees is attached as **Plate No. 3**. The copy of bill is given in **Annexure No.4**.

Table 2 - Details of the natural vegetation existing along the road side

Sl. No.	Scientific Name	Common Name	Family	Type
1.	<i>Tectona grandis</i>	Thekku	<i>Verbenaceae</i>	Tree
2.	<i>Humboldtia brunonis</i> var. <i>Brunonis</i>	Asokam	<i>Fabaceae</i>	Tree
3.	<i>Casuarina equisetifolia</i>	Kattadi	<i>Casuarinaceae</i>	Tree
4.	<i>Artocarpus heterophyllus</i>	Plavu	<i>Moraceae</i>	Tree

10.	Murraya paniculata	Mramulla	<i>Rutaceae</i>	Shrub
11.	Mangifera indica	Mavu	<i>Anacardiaceae</i>	Tree
12.	Ziziphus oenopolia	Thodalli	<i>Rhamnaceae</i>	Climber
13.	Swietenia macrophylla	Mahagany	<i>Meliaceae</i>	Tree

04	The project shall incorporate devices for solar energy generation and utilization wherever possible.	Complied
-----------	--	-----------------

Compliance:

In order to reduce the consumption of electricity from the conventional sources, the project has installed solar street lights to use maximum renewable energy to reduce electrical consumption from KSEB. The photograph of solar street lights and solar panel is provided in **Plate No.4**. The purchasing bill of solar street light is given in **Annexure No. 5**.

05	Sprinklers shall be installed and used in the project site to contain dust emissions.	Complied
-----------	---	-----------------

Compliance:

To prevent dust emissions from the road while transportation of materials, the project does splash the haulage road and critical areas with the help of tanker vehicles in regular intervals. The project also installed sprinklers in the project site. This sprinkler can perform as rain which could cover 20,235 sq. meter of the project site. This helps to control dust pollution of the atmosphere and reduce the temperature so that the labours can do their work with ease and comfort. The new technology of splashing of water can reduce the content of PM_{2.5} and PM₁₀ in air at large level. The photographs showing the effective utilization of sprinklers in the project area is provided in **Plate No. 5**.

06	The eco-restoration plan submitted with the proposal should be fully implemented.	Noted
-----------	---	--------------

Compliance:

The eco restoration plan prepared by the project will be executed in a good manner. The project has initiated to buy various saplings in and around the project site. The list of tree/shrub/herb saplings planted in the project site is given below. The mine closure plan will be done at the own cost of project proponent as agreed in the proposal. The list of tree/shrub/herb saplings planted in the project site is given below in **Table No. 3**. The copy of bill is given in **Annexure No. 4**.

Table 3 – The details of saplings planted as part of eco - restoration

Sl. No.	Scientific Name	Common Name	Family	Type
1.	Humboldtia brunonis var. Brunonis	Asokam	Fabaceae	Tree

12.	Nerium oleander	Arali	Apocynaceae	Small tree
13.	Rosa bracteata	Rose	Rosaceae	Shrub
14.	Murraya paniculata	Mramulla	Rutaceae	Shrub
15.	Solanum melongena	Brinjal	Solanaceae	Shrub

07	Corporate Social Responsibility agreed upon by the proponent should be implemented	Complied
-----------	--	-----------------

Compliance:

The project proponent has carrying out many activities for social integration and community development. The activities under Corporate Social Responsibility(CSR)/ Corporate Environmental Responsibility(CER) activities are executed in the sector of Health, Housing. The project proponent is intending to carry out more activities under CSR for inclusive growth in the community. The details are given below in **Table No.4**. The receipts of CSR activities are provided in **Annexure No.6**. The project is intending to implement more sustainable project in the community in association and consultation with the Local Self Government and community Based Organization (CBOs).

Table 4 - Details of performed activities under CSR/CER

08	Barbed metal wire fencing around the mining area shall be provided with a height of not less than 5 ft so that the falling of animals/human/belongings/dumping of garbage's etc. does not happen.	Complied
-----------	---	-----------------

Compliance

As per the stipulation of Department of Mining and geology and State Environment Impact Assessment Authority, the project has fenced around the mining area to prevent falling of animals/human being/dumping of garbage etc, the project has erected barbed metal wire fencing around the mining area with height of 5 ft. The purchase bill of materials is given in **Annexure No.7**. The photograph of barbed metal wire fencing is provided in **Plate No. 6**.

09	Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged as per stipulations of explosive department.	Complied
-----------	---	-----------------

Compliance:

Installation of warning alarm is a stipulated condition in explosive license. To give warning to the labours and community people prior to the blasting in quarry. This is properly working prior to the blasting time. The blasting time of the quarry is in between 0.30am to 11.55am and 3.30pm to 5.00pm on all working days. The photograph showing the warning alarm fixed in the project area and sign board is provided in **Plate No. 7**.

10	Access roads to the quarry shall be tarred to contain dust emissions that may arise during transportation of materials	Complied
----	--	----------

Compliance:

To reduce emission of dust through the vehicle movement, the access road from the entrance of project site to quarry is concreted and maintaining in good manner. The project is spraying water on the road to arrest the dust production during summer season. The photograph of concreted road is provided in **Plate No. 8.**

11	Overburden material should be managed within the site and the old quarries, if any, should be reclaimed and restored.	complied
----	---	----------

Compliance:

The overburden materials are stored within the project site. This will be used to restore the exploited and low laying area in future. Some portion of the overburden was used to construct haulage road and land filling in the project area. The photographs showing overburden and top soil is managing within the site is attached at **Plate No.9.**

12	Height of benches should not exceed 5m and width should not be less than 5m.	complied
----	--	----------

Compliance:

To enhance safety and to promote eco friendly mining, the quarrying activity in the project site is progressing by creating benches of 5 meter width and 5 meter height. The formation of benches is under the direction and supervision of competent person. The photograph of the mining area is provided at **Plate No. 10.** The copies of certificates of qualified persons are provided in **Annexure No. 8.**

To ensure the safety of workers in working site, the project proponent provided adequate Personnel Protective Equipments (PPE) such as helmets, ear muffs, safety belts, glows, etc. to labours in the quarry site. The copy of purchase bill is attached as **Annexure No. 18**

13	Mats to reduce fly rock blast to a maximum of 15 PPV should be provided.	Noted
-----------	--	--------------

Compliance:

The project is using ordinary delayed detonator for blasting therefore there is no issue with fly rock in the community. The project is also assuring that the maximum PPV is under 10 during the time of blasting. The project proponent is yet to incorporate mats while blasting is happening. The relevant details of assessment of the blasting operation are provided as **Annexure No.9**. Therefore the mates to reduce fly rock are yet to use in the industry.

14	Mining depth should not exceed beyond 40m, unless otherwise specifies or not below the level of nearest stream bed whichever is less.	Will be complied
-----------	---	-------------------------

Compliance:

Mining depth will not exceed beyond 40 meter or not below the level of the nearest stream bed, whichever is less. The instruction regarding to this has given to the mines manager. To ensure this, the project has given instruction to the qualified persons. All activities of these qualified persons will be under the supervision and monitoring of Environment Monitoring Cell (EMC).

15	Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of greenbelt and hollow brick envelope for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.	Complied
-----------	---	-----------------

Compliance:

The project proponent has been developing a thick vegetative cover around the crusher unit by planting various saplings. To reduce the impact of sound to the labours in the unit, the project has provided ear plugs. Vegetation around the mining area will help to reduce noise and air pollution. This helps the noise level kept within prescribed

standards. The monitoring of ambient sound level was conducted by a NABEL accredited laboratory and the result is provided as **Annexure No.1**. The photograph of the crusher unit is attached as **Plate No. 11**.

16	Assurance in the form of affidavit should be given to SEIAA that eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.	Complied
-----------	--	-----------------

Compliance:

Assurance in the form of affidavit was already submitted to SEIAA Kerala after getting the Environmental Clearance. Eco restoration in the mining plan and mine closure plan will be done the own cost of the project proponent

17	Garland drains to be provided in the lower slopes around the core area to channelize storm water.	Complied
-----------	---	-----------------

Compliance:

The proponent is very conscious to prevent all quarry waste to enter in the the public drainage or stream. The project has constructed storm water drains in the lower slopes of the project area for effective management of storm water. This helps to channelize the storm water to the rain water collection pond and the most of the debris will be settled down in the bottom of the pond. The clarifiers will be installed soon. The photograph of Garland drain is given in **Plate No.12**.

18	Debris/ silt traps to be provided to prevent entry of dust and quarry wastes entering the main streams.	Complied
-----------	---	-----------------

Compliance:

De- siltation of surface runoff is an important mitigates measure to prevent contamination of public stream. Storm water from entire project area is collected through channels and directed to the existing pond in the site. The deposited silt at the bottom of pond can collect in summer season by using excavator. The sediments will settle down at the bottom of pond and only clear water is letting out. This

M/S NEW BHARAT STONE CRUSHER & HOLLOW BRICKS INDUSTRIES

COMPLIANCE REPORT

arrangement will prevent the entry of dust and quarry waste entering in to the mainstreams. At present the project catch all rainwater and no water permits to letting out from the own land of the project. The photograph showing the rain water collection pond in the project area given in **Plate No. 2**

19	All other statutory clearances should have been obtained as applicable, by the project proponents from the respective competent authorities that for blasting and storage of explosives.	Complied
-----------	--	-----------------

Compliance:

The certificates obtained from concerned statutory authorities are enclosed in **Annexure No. 10, 11, 12, 13 & 14**. The details of statutory approvals are given below in the table.

Table 5 - The details of statutory approvals

Name of the Statutory approval	Name of the Statutory authority	Approval Number & Date
Environmental Clearance order	State Environmental Impact Assessment Authority, Kerala	43/SEIAA/KL/7163/2012 Dated: 15-03-2013
"Consent to Operate"	Kerala State Pollution Control Board	File No : 314932 Dated 24/11/2014
Explosive License	Ministry of Commerce & Industry – Petroleum & Explosives Safety Organization (PESO)	E/SC/KL/22/810(E38008) Dated: 30-03-2015
License for quarry operations	Kanichar Gram Panchayat	A3- LF/1/17-18 Dated: 13-04-2016
Lease order	Directorate of Mining and Geology	184/2014- 15/11610/M3/2013 Dated; 20-06-2014

20	In case of any change(s) in the scope of the project, the project would	Noted
-----------	---	--------------

	require a fresh appraisal by this authority	
--	---	--

Compliance:

At present the project is running as per plan submitted in Environmental Impact Assessment Authority, Govt. of India and approved mining plan. There is no change in the scope of the project. The project will seek for a new Environmental clearance in the case of any change(s) in the scope of the project.

21	The authority reserved the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.	Noted
-----------	--	--------------

Compliance:

To improve the safety of mine and human life, the project will incorporate all possible measures in the mine industry, If the authority instructs to add additional safeguard measures subsequently.

22	The stipulations by Statutory Authorities under different Acts and notifications should be complied with, including the provisions of Water (Prevention and control of pollution) Act, 1974, the Air (Prevention and control of pollution) Act 1981, The Environment (Protection) Act, 1986, the public liability (Insurance) Act, 1991 and EIA notification, 2006.	complied
-----------	---	-----------------

Compliance:

The stipulated orders and directions under different act and notification including EIA notification will be scrupulously followed by the project proponent. A brief list of various Acts and notifications which are followed by the proponent is given below

- Kerala Minor Mineral Concession Rules, 2015.

- Mines Act, 1952
- Explosive Rules, 2008
- Kerala Panchayat Raj Act, 1994
- Central Ground Water Authority
- Water Pollution (Prevention & Control) Act, 1974
- Air Pollution (Prevention & Control) Act, 1981
- Environment Protection Act, 1986
- EIA Notification, 2006 / 2009
- The Kerala Promotion of Tree Growth in Non-Forest Areas (Amendment) Act, 2007.

23	The project proponent should advertise in at least two local newspapers widely circulated in the region. One of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters area available with the Department of Environment and climate change, Govt. of Kerala and may also be seen on the website of the authority at www.seiaaKerala.org . The advertisement should be made within 10 days from the date of receipt of the clearance letter and a copy of the same should be forwarded to the office of this authority as confirmation.	Complied
-----------	--	-----------------

Compliance:

An advertisement in two local newspapers regarding Environmental Clearance accorded to the quarry project was given within the stipulated period and the copy of the same was submitted at SEIAA Kerala. The copy of the advertisement given in two local newspapers is provided at **Annexure No.15**. The details are given below in the table.

Table No.6 - Details of news paper where advertisement published

News paper	Language	Date
Desabhimani	Malayalam	16/04/ 2013
Indian Express	English	14/04/2013

M/S NEW BHARAT STONE CRUSHER & HOLLOW BRICKS INDUSTRIES

COMPLIANCE REPORT

24	A copy of the clearance letter shall be sent by the proponent to concerned Grama Panchayat/District Panchayat/ Municipality/ Corporation/ Urban local Body and also to the local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.	Complied
----	--	-----------------

Compliance:

A copy of the Environment Clearance letter was submitted to the Panchayat Office. The project proponent did not receive any suggestions / representation from anywhere while the processing the proposal therefore did not give the copy of clearance letter to anyone. At present the project does not have a website this will be created soon. The acknowledgement received from the Panchayat office is attached in **Annexure 16.**

25	The proponent shall submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hand copies as well as by e-mail) and upload the status of compliance of the stipulated EC conditions including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the respective Regional Office of MoEF, Govt. of India and also the Directorate of Environment and Climate Change, Govt. of Kerala	complied
----	--	-----------------

Compliance:

The project proponent is bound to follow the conditions stipulated in the Environmental Clearance order. The project proponent is regularly submitting the compliance report to the competent authorities. The compliance report of the term October 2018 – March 2019 is being submitted to the Directorate of Environment and Climate Change, Govt. of Kerala and the Regional Office of MoEF&CC, Govt. of India with the results of monitored data both in hard copy as well as mail. The result of monitored data is provided in **Annexure No. 1, 2 and 3.**

M/S NEW BHARAT STONE CRUSHER & HOLLOW BRICKS INDUSTRIES

COMPLIANCE REPORT

26	The conditions of the environmental clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font size of not less than 40.	Complied
-----------	---	-----------------

Compliance:

The detail of the Environmental Clearance has display on metallic board in the project site. The metallic board installed as specified in the conditions of Environmental Clearance order. The photograph showing the sign board with specific conditions is provided in **Plate No. 13**.

27	The proponent shall provide affidavit that all the conditions stipulated in the EC shall be scrupulously followed.	Complied
-----------	--	-----------------

Compliance:

An assurance in the form of affidavit was already submitted to SEIAA Kerala. The copy of submitted affidavit is attached as **Annexure No.17** for ready reference.

Sir,

Sub :- Construction of a School building for GLPS Makkimala – 20 MM
and M sand Sponsored – reg

- Ref :- 1. Invoice No:BB/6102 Dated 31.10.2018
2. Invoice No:BB/6124 Dated 31.10.2018
3. Invoice No:BB/6138 Dated 01.11.2018
4. Invoice No:BB/6080 Dated 31.10.2018

As you are aware District Nirmithi Kendra Wayanad had decided to construct a school building, GLPS Makkimala in connection with "Flood Relief works 2018" at Wayanad district. As discussed you had agreed to contribute materials costs Rs.51,800/- as per the above mentioned 4 invoices without any cost.

We hereby conveying our thanks for your valid contribution and appreciating your social commitment in this regards.

Yours Faithfully,

Executive Secretary.

(Prof. V.R. Sastry, NITK-Surathkal (Govt. of India))

- Temples, Schools, Hospitals/Dispensaries, and other sensitive structures in nearby villages may be assigned with the least Threshold ground vibration limit (PPV) of 2mm/s as per DGMS norms.
- Ground vibrations levels were monitored simultaneously at different distances from blast site and at some houses, using 2 Microprocessor based Blast Vibration Monitors, Minimate Plus, Instanetel, Canada.
- Instruments were set up along the progress line of the blasts, to a large extent wherever possible. One instrument was always kept near the Houses.
- Summary of ground vibrations recorded from all the blasts studied are given below.

Sl. No.	No. of Blastholes	Depth of Holes (m)	Explosive/ Hole (kg)	Total Explosive / Blast (kg)	Distance (m)	PPV (mm/s)	Remarks
1	10	2.4	0.625	6.25	50	20.57	
					70	2.667	Safe
2	10	2.4	0.625	6.25	60	3.816	Safe
					80	5.017	Safe
3	15	1.5	0.375	5.625	70	1.016	Very Safe
					100	0.635	Insignificant
4	25	2.4	0.625	15.625	70	4.953	Safe
					100	<0.51	Insignificant
5	20	1.5	0.375	7.5	90	0.508	Insignificant
					500	<0.51	Insignificant
6	25	2.4	0.625	15.625	80	1.397	Very Safe
					500	<0.51	Insignificant
7	25	1.5	0.375	9.375	90	1.27	Very Safe
					250	<0.51	Insignificant
8	30	2.4	0.625	18.75	80	8.255	
					250	<0.51	Insignificant
9	40	1.5	0.375	15.0	100	1.524	Very Safe
					500	<0.51	Insignificant

- In general, the PPV levels reduced considerably from 100m distance onwards from the blast site.

Annexure No. 10

Proceedings of the State Environment Impact Assessment Authority Kerala

Present: Dr. A.E. Muthunayagam, Chairman; Prof. (Dr.) K.P. Joy, Member; Sri. James Varghese IAS, Member Secretary

Sub: SEIAA Kerala - Proposed quarry project in Survey No. 1411 at Kanichar Village, Kanichar Panchayath, Thalassery Taluk, Kannur District, Kerala by M/s New Bharat Stone Crusher & Hollow Bricks Industries – Environmental Clearance under EIA Notification 2006 accorded – Orders issued

Environmental Clearance

No. 43/SEIAA/KL/7163/2012

dated, Thiruvananthapuram 15-03-2013

ORDER

The Partner of M/s New Bharat Stone Crusher & Hollow Bricks Industries, vide their application received on 15-11-2012, has sought environmental clearance under the EIA Notification, 2006 for the quarry project at Kanichar Village, Kanichar Panchayath, Thalassery Taluk, Kannur District, Kerala. The proposal has been appraised by the State Level Expert Appraisal Committee Kerala constituted by the competent authority, as per prescribed procedure in the lights of provisions under the EIA Notification 2006 and subsequent amendments, in its 10th meeting held on 26th and 27th November 2012 and also in the 12th meeting held on 2nd February, 2013 AND on the basis of the supporting documents enclosed with the application viz., the Form – 1, questionnaire for mining projects, pre-feasibility report, Environment Management Plan and the additional clarifications furnished in response to the observations, the SEAC Kerala recommended environmental clearance to the project.

It is interalia, noted that the project comes under the Category B, Activity 1(a) of Schedule of EIA Notification 2006. The proposed project site falls within 11°51' N and 75°45' E. The proposed project is for quarrying of 2,40,000 TPA of building granite stone from an area of 3.9076 hectare (39059.27 m²) of land. The expected life of mine will be 14 years. The proposed project activity involves about 70% of the pit area for exploring granite building stone. At the end of life of mine, the reclaimed area will be suitably planted and the remaining void at lower levels of excavated pit will be utilized as water storage/ground water recharge and will be utilized for domestic/agricultural purposes. The proposed project does not involve any underground mining activities. The mining will be done by open cast semi mechanised method of mining. The bench height and width proposed is 5 m. The exploitation of mineral is being done from 225-65 m RL in conceptual phase. A total quantity of 6538 m³ of top soil from two pits will be removed during the mining operations. The top soil will be utilized for green belt development/plantation and will also be utilized for filling the low lying areas or adjacent quarry site. The sewage of 1.25 KLD generated from the mine office will be diverted to the septic tank followed by soak pit. The daily water requirement of 5.5 KLD will be met from storm water / bore well. There will be fugitive emissions generated during material handling, transportation, loading, unloading, etc. that are proposed to be managed by regular water sprinkling on haul road, green belt development and avoiding overloading of vehicles. The mineral produced from the proposed mine will be sent to the crusher plant located at around 400 m from the quarry project for crushing it to the required size before dispatching it to end use.

The SEIAA considered the proposal in its 13th meeting held on 13th December 2012 and 15th meeting held on 22nd February 2013. The SEIAA, after due consideration of the relevant documents and additional clarifications submitted by the project proponent, and in view of the recommendations of SEAC, approved for issuance of Environmental Clearance for the project mentioned above at its 15th meeting held on 22nd February 2013. Accordingly, the State Level Environment Impact Assessment Authority (SEIAA) Kerala constituted by Govt. of India vide Notification No. S.O. 2484(E) dt.3-11-

COMPLIANCE REPORT

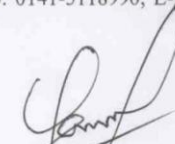

2011 of Ministry of Environment and Forests, Govt. of India, published as Gazette extraordinary No. 2074 on 3-11-2011, hereby accord necessary Environmental Clearance for the above project as per powers vested with it under the provisions of Environment Impact Assessment Notification – 2006 and subsequent amendments and also under the provisions made in the O.M. No. L-11011/47/2011-IA.II(M) dated 18th May 2012 of the Ministry of Environment and Forests, Government of India, and further subject to strict compliance of the following specific conditions, and the general conditions contained in the Annexure, which shall also form a part of this document.

1. A buffer distance of at least 100 m from the quarry to the main road should be maintained.
2. The required distance from the HT line to be maintained as prescribed by KSEB.
3. Depth of mining should not exceed 35 m below ground level as given in the proposal.

Compliance of the above conditions will be monitored by the Directorate of the Department of Environment and Climate Change, Government of Kerala or its agencies and also by the Regional Office of the Ministry of Environment and Forests, Government of India located at Bangalore. Necessary support for entry and inspection should be provided by the project proponent to the staff of the Directorate and Ministry for monitoring purposes.

The given address of correspondence of the Authorized Signatory of the project is:- Mr. Abin Issac, Partner, M/s New Bharat Stone Crusher & Hollow Bricks Industries, 24th Mile, Nedumpoyil, Poolakkutty P.O., Kannur, Kerala; Telephone No: 0485-2302809; Mobile No: 09447580355; E mail: nbscrusher@yahoo.in

Agency with NABET accreditation for EIA is:- M/s Enkay Enviro Services, 24-B, Basement, Dadu Marg, Gopal Bari, Jaipur-302001; Tel. No. 0141-2363996/4023996; Fax No: 0141-5118996; E-mail: info@enkayenviro.com

Annexure

**STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY KERALA
GENERAL CONDITIONS (for mining projects)**

- (i) Rain water harvesting to collect and utilize the entire water falling in land area should be provided.
- (ii) Environment Monitoring Cell as agreed under the affidavit filed by the proponent should be formed and made functional.
- (iii) Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, inclusive of approach road and internal roads.
- (iv) The project shall incorporate devices for solar energy generation and utilization wherever possible.
- (v) Sprinklers shall be installed and used in the project site to contain dust emissions.
- (vi) The eco-restoration plan submitted with the proposal should be fully implemented.
- (vii) Corporate Social Responsibility agreed upon by the proponent should be implemented.
- (viii) Barbed metal wire fencing around the mining area shall be provided with a height of not less than 5 ft so that falling of animals/human/belongings/dumping of garbages etc. does not happen.
- (ix) Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged as per stipulations of Explosive Department.
- (x) Access roads to the quarry shall be tarred to contain dust emissions that may arise during transportation of materials.
- (xi) Overburden materials should be managed within the site and the old quarries, if any, should be reclaimed and restored.
- (xii) Height of benches should not exceed 5 m and width should not be less than 5 m.
- (xiii) Mats to reduce fly rock blast to a maximum of 15 PPV should be provided.
- (xiv) Mining depth should not exceed beyond 40 m, unless otherwise specified or not below the level of nearest stream bed, whichever is less.
- (xv) Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB.
- (xvi) Assurance in the form of affidavit should be given to SEIAA that eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.
- (xvii) Garland drains to be provided in the lower slopes around the core area to channelize storm water.
- (xviii) Debris/ silt traps to be provided to prevent entry of dust and quarry wastes entering the main streams.

COMPLIANCE REPORT

- (xix) All other statutory clearances should have been obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.
- (xx) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Authority.
- (xxi) The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- (xxii) The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.
- (xxiii) The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the Department of Environment and Climate Change, Govt. of Kerala and may also be seen on the website of the Authority at www.seiaakerala.org. The advertisement should be made within 10 days from the date of receipt of the Clearance letter and a copy of the same should be forwarded to the office of this Authority as confirmation.
- (xxiv) A copy of the clearance letter shall be sent by the proponent to concerned Grama Panchayat/ District Panchayat/ Municipality/Corporation/Urban Local Body and also to the Local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.
- (xxv) The proponent shall submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data **(both in hard copies as well as by e-mail)** and upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the respective Regional Office of MoEF, Govt. of India and also to the Directorate of Environment and Climate Change, Govt. of Kerala.
- (xxvi) The conditions of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font of size of not less than 40.
- (xxvii) The proponent should provide affidavit that all the conditions stipulated in the EC shall be scrupulously followed.

No. 184/2014-15/11810/M3/2013 Dated, Tvpm., 20.6.2014

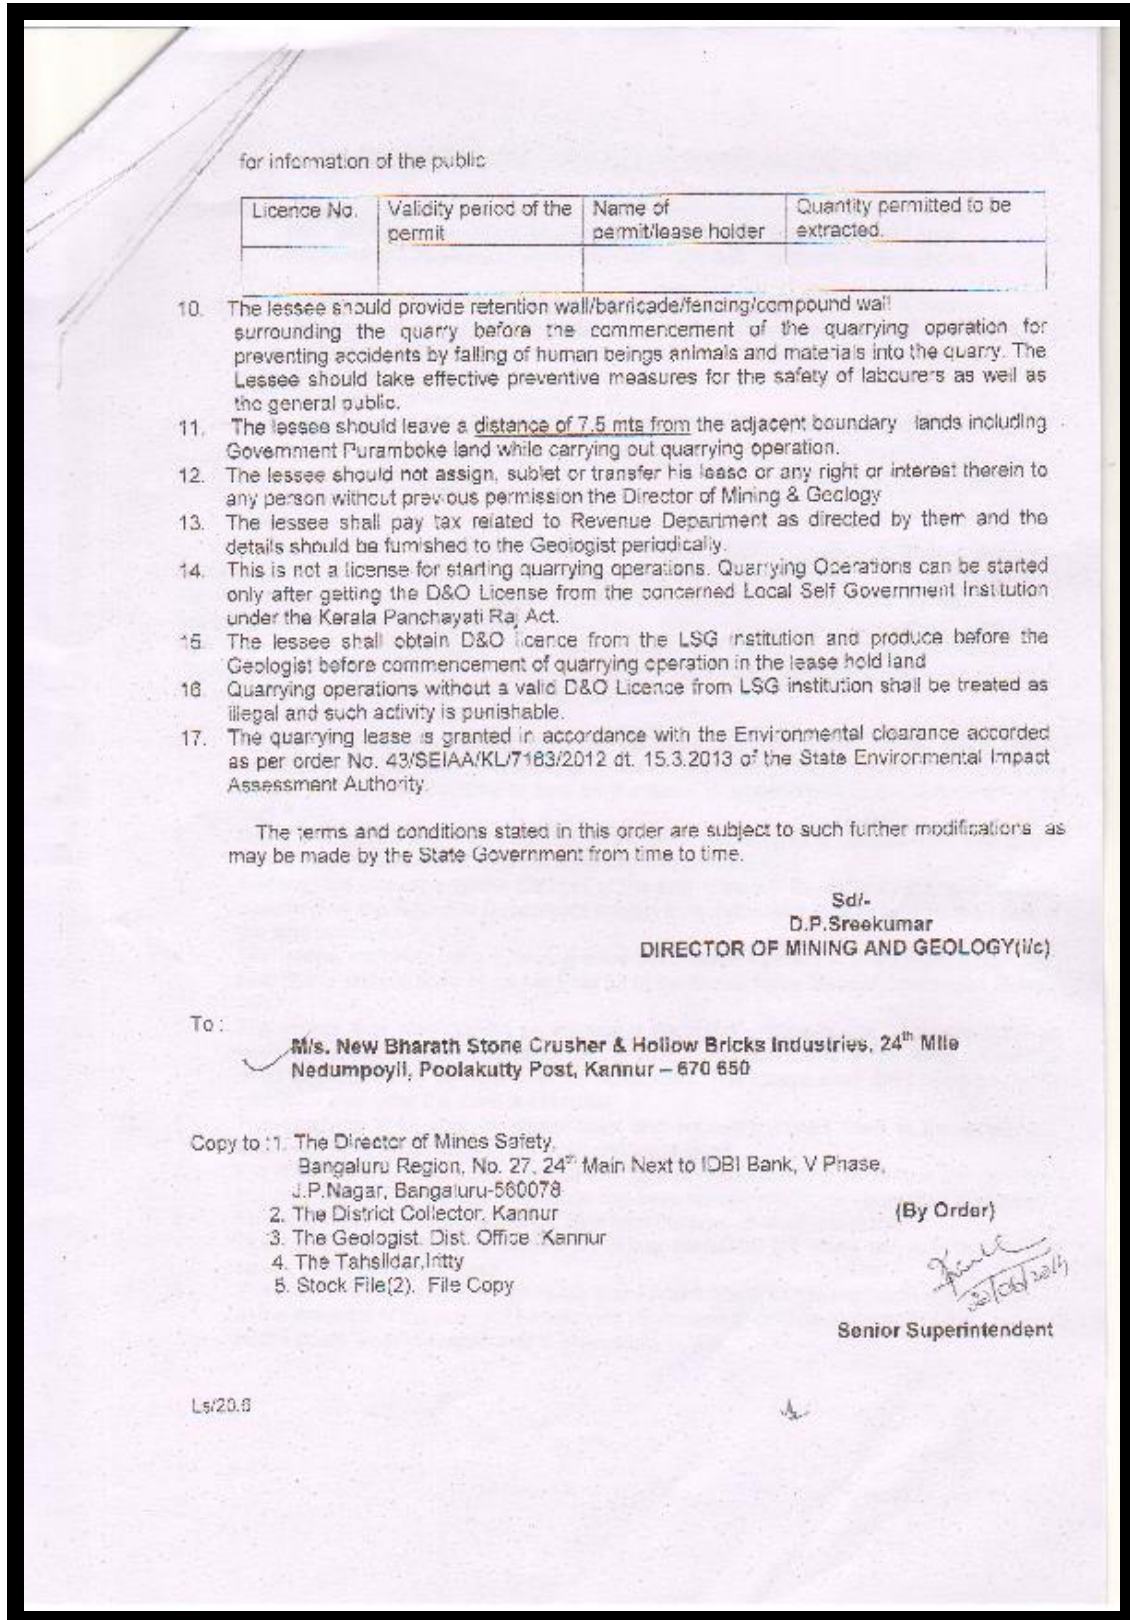

ORDER

A quarrying lease is granted to M/s. New Bharath Stone Crusher & Hollow Bricks Industries, 24th Mile Nedumpoyil, Poolakutty Post, Kannur – 670 650 to quarry Granite Building Stone over an area of 3.8395 hectares of Private land comprised in Sy.No.1411 of Kanichar Village, Iritti (New) Thalassery (old) Taluk, Kannur District for 10(ten) years from the date of execution of the quarrying lease deed under the Kerala Minor Mineral Concession Rules, 1967 and as per the Survey map issued by the Tahsilidar, Thalassery and submitted by the applicant subject to the under mentioned conditions.

1. Royalty is payable to Government as per Rule 28(1)(c) of the Kerala Minor Mineral Concession Rules, 1967 in respect of minor mineral quarried and moved out of the quarry subject to revision from time to time on the basis of amendments to the schedule I of the said Rules.
2. Dead rent is realizable under 28(1)(d) of the said rules subject to revision from time to time on the basis of amendments to the schedule II of the said rules.
3. Surface rent realizable under 28(1)(e) of the said rules will be equal to the land revenue assessed by the Revenue Department subject to revision from time to time on the basis of the land revenue.
4. The lessee shall execute a quarrying lease deed within a period of three months from the date of this order in form 'H' as per Rule 32 of the Kerala Minor Mineral Concession Rules, 1967.
5. The lessee shall also deposit an amount of Rs. 1000/- (Rupees one thousand only) as security deposit for the observance of the terms and conditions of the lease before the deed is executed as per rule 31 of the said rules. The lessee shall commence quarrying operation only after the deed is executed.
6. The quarrying area shall be demarcated and boundary stones fixed at the lessee's expenses before execution of the quarrying lease deed.
7. The lessee shall not win and dispose any type of dimension and decorative stones from the area over which the quarrying lease has been sanctioned on the strength of this order.
8. The production of Granite Building Stone from the area covered under this Grant shall be restricted to 60,000 MT (sixty thousand MT only) per year during the tenure of this quarrying lease.
9. The lessee should exhibit a sign board and a notice board for the intimation of the public at the entrance of the quarry. The following information should be inscribed on the notice board both in English and in Malayalam
